# special use FURNITURE

CONTRACT GS-28F-2008D • BUSINESS SIZE: SMALL  
FEIN# 36-3899689 - CCR # 3V177 • SPECIAL ITEM # 71-302

Clarin chairs are unparalleled in luxury, durability and comfort. Upholstered seats and backs and metal finishes are available in a wide variety of colors that easily coordinate with your facility's décor. Clarin chairs have the versatility required to accommodate many of today's multipurpose events, from reviewing stands to banquet settings, from sporting events to meeting rooms.

All Clarin folding chairs come standard with patented rubber non-marring feet. Long lasting and slip resistant, the non-marring feet provide maximum floor surface contact. A self-leveling frame is another standard feature. This assures level seating on uneven surfaces and allows the frame to "remember" its original shape after use.

Customization is easy with our Boxx Seat application. Your branch, division or squadron logo can be applied onto the backs and seats of the chairs.

## BOXX SEAT LOGO IMPRINT ORDERING INSTRUCTIONS

- Minimum required order quantity: 24
- F.O.B. Point of Origin or F.O.B. Factory
- Camera ready, color separated artwork and/or lettering in crisp black and white in eps format must be supplied during time of order. This applies to both backs and seats.
- Specific Ink colors (Pantone Matching System, Naz-Dar, etc.)
- Frame color
- Model Number
- Vinyl Color

Embroidery is available, please contact factory for pricing and ordering information. Not a schedule item.

Upon receipt of order, Clarin will provide a sample vinyl with your logo imprint within three weeks. A form will be included with the sample to fax back to the factory. Once approval is received, the order will be released for production and the order will be shipped in approximately six to eight weeks. The above schedule is based on shipments within the 48 contiguous States.

## OPTIONS AVAILABLE

The Weatherfighter application is a new and exciting rust resistant option available for consistent outdoor use. Excellent performance in high humidity areas. Marine Grade vinyl, plastic seat and back inserts, rot resistant thread and special frame coatings are all used to deter rust and prevent warping.

Interbrackets are available to keep the chairs in alignment and to assist in maintaining row spacing. Interbracket ganging is factory installed.
