The Self-Returning Swivel Seat

Where form meets function. A contemporary and comfort-conscious design paired with smart engineering make the Self-Returning Swivel Seat the perfect solution for any high-traffic working environment. Have piece-of-mind knowing your furniture will never be in the way.

Shown with Apollo Chair

Customize a workstation that fits your specific wants and needs. Let the Clarin Design Team work with you to create a no-hassle, permanent seating and table solution. Your seats and tables will be secure, follow building safety codes and provide a comfortable task seat for your staff, students or patrons.

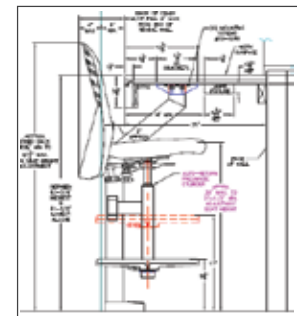

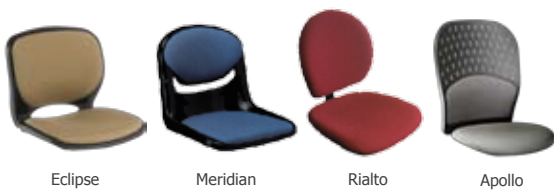

Features

- Swing-arm system pivots outward on a horizontal plane for easy entry and exit
- Swivel seat automatically returns after each use to provide a more streamlined look and meet safety codes
- Hovering design provides for easy and quick cleaning under and around the seat
- Adjustable foot rest, seat height and seat back fit different size users
- 4 different ergonomic seat options that match any décor: M90, Apollo, Rialto, Meridian (Apollo shown)
- Swing arm system and chair heights can be customized to fit most table heights, including high-top tables (as shown)
- Each chair model has options such as lumbar support, flex-back tilt and designer fabrics*

Customize it

- Chair height
- Chair model
- Table dimensions
- Table style
- Degree of swivel
- Pedestal angles

Seat Options*

Clarin's design team will design around your requirements.
